

**DYMO****CardScan**[®] CS
Contact Management System

Capture, organize and manage your contacts easier than ever.

Turn contacts into opportunities.

The new CardScan Contact Management System combines the latest generation of industry leading CardScan[®] contact management software with a newly redesigned sleek business card scanner.

Just scan any business card, or drag-and-drop contact data from any email signature or web page – CardScan software automatically enters the data into the appropriate fields to create an indispensable digital address book.

New CardScan software includes a redesigned interface and great new features that make managing your contacts easier than ever! With the new Microsoft Outlook[®] Add-in option, you can manage contacts directly within Microsoft Outlook!*

* Included for CardScan Executive and CardScan Team

Microsoft Outlook Add-In View

Contact Address View

CardScan Contact Management System features:

- 1 Capture contact data without typing! Scan directly from business cards or drag and-drop from emails and web pages
